1. Introduction/Overview

The Maryland General Assembly is providing \$3.5 million in fiscal year 2021 (July 1, 2020 – June 30, 2021) in grants for safety improvements to existing nonpublic school buildings.

Nonpublic schools, including preschools, eligible in fiscal year 2021 (FY21) for the Aid to Nonpublic Schools Program for the purchase of textbooks or computer hardware and software for loan to students, commonly known as the “Textbook and Technology Program”, are eligible to apply for the FY21 Interagency Commission on School Construction Program (IAC) Nonpublic School Safety Grants (NPSI.) Nonpublic schools that serve students with disabilities through the Nonpublic Placement Program R00A02.07 Subprogram 0762 are eligible for funding allocations for FY 21.

Payment for work completed under this program will be through reimbursement to the grant recipient – the school. No matching funds are required, but the school shall be responsible for all project costs exceeding the amount of the grant. The maximum grant amount is \$65 per student, except where at least 20% of the students are eligible for free or reduced price meal program, or for schools that serve students with disabilities through the Nonpublic Placement Program, the maximum grant amount is \$85 per student. The minimum grant amount is \$5,000 per eligible school.

Individual grant allocations will be based on the number of schools meeting certain criteria. Preliminary allocations will be established after all applications have been received and reviewed in early spring 2021. If more eligible schools apply and qualify for grants that exceed the total authorization, the Maryland State Department of Education (MSDE) shall prorate the grants.

Schools will have until January 8, 2020 to apply for a grant. Grant recipients will have until June 30, 2022 to contract for approved project work. Schools must complete and pay for the work in full prior to requesting State reimbursement.

2. Eligible Schools

a) Nonpublic schools and preschools, eligible to receive aid from the Textbook and Technology Program in FY21 (school year 2020-2021) or nonpublic schools that serve students with disabilities through the Nonpublic Placement Program R00A02.07 Subprogram 0762, are eligible for this program. To determine eligibility, take the second prior year tuition revenues (school year 2018-2019) and divide by the second prior year enrollment (September 30, 2018). If the resulting number is less than or equal to \$16,526 then the school qualifies to apply for this program. 7. Application Process

All nonpublic schools interested in participating in the program shall submit an online application. The application is a two-step process. Second, the eligible schools submit information about the specific project(s) for review and approval. **Applications must be received by the close of business Friday, January 8, 2020.**

In order to complete the first step, the school must have identified a contact person, the total tuition revenue for school year 2018-19, and the total enrollment as of September 30, 2018. The school also must have reviewed and completed the **Grant Assurances** document.

In order to complete the second step, the school must identify a second contact person and submit a brief narrative description of the proposed work, an estimated total project cost, and a proposed schedule for the work. The school must identify the number of students eligible for federal free and reduced price meal programs (FARMS.) The school must upload the completed the signed **Grant Assurances** document.

The school must indicate whether any school funds have already been allocated for the project. The amount of State funding requested will be the difference between the **Total Estimated Cost** of the project and the funds already available. If the school does not have any funds available and is requesting the maximum State allocation, enter \$0 as the **Estimated Private/Nonpublic Funds Available**.

Applications are available at: <https://npsi.msde.maryland.gov/>
